## EXPERIENCE

**BNY Pershing** · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — regulated, high-stakes surfaces where trust, auditability, and clear control have to hold once engineering ships them.

- Lead designer on Fully Paid Lending: took an ambiguous new product from early concept to shipped production UI with PM and engineering — enrollment, dashboard, position views, and edge-case states now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement from discovery through handoff: worked research, user feedback, and stakeholder input into multi-step flows with review, approval, and audit states that stay clear for the person on the other end.
- Contributed reusable components and interaction patterns back to the Wealth Services design system — states, hierarchy, and annotated specs documented so engineering builds them consistently at scale.
- Prototype AI-assisted document-upload and workflow patterns with Devin, Codex, and Claude Code while keeping human review and control visible; partnered with internal teams to develop workflows and AI-enabled patterns for the Wealth Services design team, and mentor designers on AI-assisted process.

**Collective Design** · Design Advisor 2024 – Present

Advise early-stage AI and product startups on interaction craft and systems thinking for technical products where trust matters as much as speed and there is no playbook yet.

**Purple Panda Rentals** · Product Designer & Founder Sep 2020 – Feb 2023

Founded and shipped a consumer product 0-to-1 in Figma and code — end-to-end flows from concept through production UI. 100+ sign-ups, 20% referral increase.
