EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Regulated wealth platform for advisors and institutions — end-to-end digital money journeys where compliance, clarity, and craft have to ship together across complex transactional flows.

- Lead designer on Fully Paid Lending: owned end-to-end journey design from wireframes and interactive prototypes through high-fidelity specs and engineering handoff — enrollment and dashboard now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product, Engineering, and research: mapped multi-step transactional money journeys, produced interactive prototypes, and delivered implementation-ready specs that clarified dual-sided operator and client needs.
- Contribute reusable UX patterns and design-system work across Wealth Services so dense, compliance-bound financial flows stay consistent; partners with design peers on craft reviews and handoff quality.
- Partnered with internal teams on AI-enabled Wealth Services workflows and patterns; uses Figma plus Devin, Codex, and Claude Code to move from research insight to production-minded prototypes quickly.
