EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Regulated enterprise wealth platform for advisors and institutions — systems-minded product work where reusable components, shared visual language, and clear documentation keep complex journeys coherent.

- Lead designer on Fully Paid Lending: defined reusable dashboard and enrollment patterns, states, and edge cases now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product and Engineering: high-fidelity Figma specs with variants, auto layout, and accessibility-minded handoff so multi-step regulated flows stay consistent across teams.
- Grew a shared pattern library for Wealth Services — atomic components, docs, and dos/don'ts so design and product ship reusable UI instead of one-off screens under banking constraints.
- Partnered with internal teams on AI-enabled Wealth Services patterns and design-system governance; balances systems rigor with bias to ship in Figma and code.
