EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — owning end-to-end design on high-stakes product surfaces where visual craft, interaction clarity, and ship-with-PM/eng discipline matter as much as the workflow itself.

- Lead designer on Fully Paid Lending: owned the product end to end from UX strategy through polished UI — enrollment and dashboard flows now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product and Engineering: research through high-fidelity prototypes that raise the visual and interaction bar on multi-step journeys while still shipping at platform scale.
- Own visual and interaction craft across responsive surfaces — type, spacing, hierarchy, motion-minded states — and mentor peers on workstreams while contributing reusable patterns that keep dense flows consistent.
- Partnered with internal teams on AI-enabled Wealth Services patterns; uses Devin, Codex, and Claude Code for ideation through production so exploration stays fast without sacrificing craft.
