EXPERIENCE

BNY Pershing · Product Designer, Wealth Services

Sep 2023 – Present

Enterprise wealth platform for advisors, institutions, and their clients — high-stakes money journeys where trust, clarity, and visual polish have to hold all the way to production.

- Lead designer on Fully Paid Lending: independently drove an ambiguous new product from discovery through launch with PM and engineering, delivering wireframes, prototypes, and production-ready designs — enrollment, dashboard, and position views now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day.
- Co-led New Account Opening and Asset Movement: turned research, analytics, and stakeholder input into end-to-end customer journeys, then presented design decisions and tradeoffs to product, engineering, and senior leadership to align on direction.
- Raised the visual bar across dense financial surfaces — typography, hierarchy, spacing, and interaction states — and contributed reusable components and UX patterns back to the Wealth Services design system so quality holds at scale.
- Partnered with internal teams to develop workflows and AI-enabled patterns for the Wealth Services design team; build working prototypes in Figma and code with Devin, Codex, and Claude Code, and mentor designers through critique and AI-assisted process.

Collective Design · Design Advisor

2024 – Present

Advise early-stage AI and product startups on interaction craft, visual quality, and product strategy when there is no playbook yet.

Purple Panda Rentals · Product Designer & Founder

Sep 2020 – Feb 2023

Founded and shipped a consumer rental platform 0-to-1 in Figma and code — end-to-end customer journeys, brand, and production UI. 100+ sign-ups, 20% referral increase.
