

John Rubino

Product designer in NYC with 4+ years turning complex, data-dense enterprise workflows into interfaces that feel clear and usable. I partner with product and engineering, ship in both Figma and code, and use Devin, Codex, and Claude Code to take work from early concept to design to production.

EXPERIENCE

BNY Pershing · Product Designer, Wealth Services

Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — regulated, data-heavy surfaces used by business and operations audiences, where accuracy and clear control matter.

- Lead designer on Fully Paid Lending: distilled complex lending, position, and earnings data into an enterprise UI, taking it from user flows and wireframes through prototypes and production-ready designs with PM and engineering — now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day.
- Co-led New Account Opening and Asset Movement: turned user and market research into multi-step flows with review, approval, and audit states, and presented prototypes and design decisions to product, engineering, and business stakeholders to align on direction.
- Contributed reusable components, interaction patterns, and annotated documentation to the Wealth Services design system, building accessibility (WCAG) into states and hierarchy so engineering ships consistently at scale.
- Partnered with internal teams to develop workflows and AI-enabled patterns for the Wealth Services design team; prototype agentic, AI-assisted workflows in Figma and code with Devin, Codex, and Claude Code, keeping human review visible, and guide designers and cross-functional peers on AI-assisted design practice.

Collective Design · Design Advisor

2024 – Present

Advise early-stage AI and product startups on interaction craft and systems thinking for technical, AI-driven products when there is no playbook yet.

Purple Panda Rentals · Product Designer & Founder

Sep 2020 – Feb 2023

Founded and shipped a consumer rental platform 0-to-1 in Figma and code — end-to-end customer journeys, brand, and production UI. 100+ sign-ups, 20% referral increase.
