EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — owning end-to-end design on high-stakes digital product surfaces where design-system consistency, responsive craft, and a tight design-to-engineering handoff matter as much as the workflow itself.

- Lead designer on Fully Paid Lending: owned discovery through final implementation — user flows, high-fidelity Figma, and polished UI now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product Managers, Engineers, and stakeholders: research through interactive prototypes that turn multi-step journeys into clear, responsive experiences operators can trust.
- Contribute reusable components, interaction patterns, and annotated Figma files (Auto Layout, variants, Dev Mode) so dense product surfaces stay consistent and developer-ready across the design system.
- Iterate with research, analytics, and partner feedback; partnered with internal teams on AI-enabled Wealth Services patterns — uses Devin, Codex, and Claude Code to keep exploration fast without sacrificing craft.
