EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — multi-step onboarding, activation, and money workflows where clarity has to survive compliance pressure and real operator load.

- Lead designer on Fully Paid Lending: designed enrollment and dashboard journeys that help partners discover and complete a new securities-lending product — now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product and Engineering: mapped how operators actually work, then simplified multi-step activation and transfer flows with clear hierarchy, covered states, and less drop-off.
- Redesigned alternative investment order entry with AI-enabled document upload — cut friction in a document-heavy client path while keeping compliance requirements intact, pairing qualitative workflow insight with measurable completion outcomes.
- Partnered with internal teams on AI-enabled workflows and patterns for the Wealth Services design team; prototypes and ships with eng partners in Figma and code using Devin, Codex, and Claude Code.
