EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Advisor-facing wealth platform for Introducing Broker-Dealers — end-to-end ownership of complex money and portfolio workflows so demanding professionals can act with confidence.

- Lead designer on Fully Paid Lending: owned a dense securities-lending product area end to end — enrollment and dashboard flows now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product and Engineering: research, systems-level patterns, and high-fidelity prototypes that set clearer interaction standards across multi-step advisor workflows.
- Obsess over how dense financial UI feels — hierarchy, states, and tiny interaction details — while shipping polished work that stays usable under real operational pressure.
- Partnered with internal teams on AI-enabled workflows and design-system patterns for the Wealth Services design team; AI-native practice with Devin, Codex, Claude Code, and ChatGPT while delivering in Figma and code.
