EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — owning end-to-end design across ambiguous, compliance-heavy journeys so high-stakes operations feel calm and clear.

- Lead designer on Fully Paid Lending: owned the product end to end from UX strategy through polished UI — enrollment and dashboard flows now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product, Engineering, and cross-functional partners: research through high-fidelity prototypes that simplify multi-step journeys without losing required rigor.
- Contributed reusable UI patterns and shared visual language across onboarding and lending surfaces — treating design-system consistency as part of shipping, not a separate track.
- Partnered with internal teams on AI-enabled workflows and design-system patterns for the Wealth Services design team; balances blue-sky exploration with bias to ship in Figma and code.
