EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — turning dense, dual-sided money workflows into clear experiences that hold up for both sophisticated operators and the people they serve.

- Lead designer on Fully Paid Lending: owned a dense product end to end — enrollment, dashboard, and position-level flows now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product and Engineering: research through high-fidelity prototypes that clarify multi-step journeys, hold guest- and operator-side needs in the same flow, and ship phased improvements rather than one-shot redesigns.
- Own visual and interaction craft across responsive surfaces — type, spacing, hierarchy, and states — while contributing reusable patterns that keep dense financial flows consistent across the platform.
- Partnered with internal teams on AI-enabled workflows and design-system patterns for the Wealth Services design team; prototypes fast in Figma and code, then validates with partners before polish.
