EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise SaaS wealth platform for advisors and institutions — dense analytical workflows where clarity, accessibility, and measurable outcomes have to hold up for sophisticated operators day to day.

- Lead discovery with Product and Engineering as a product triad: research, journey mapping, and prototype-to-learn loops that validate problems before build — then ship phased improvements tied to partner adoption and usage.
- Lead designer on Fully Paid Lending: turned a dense end-to-end workflow (enrollment, dashboard, position-level flows) into a clear, scalable experience now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement: translated multi-step operator journeys into accessible, high-fidelity interfaces with reusable patterns that keep dense financial flows consistent across the platform.
- Partnered with internal teams on AI-enabled Wealth Services workflows and design-system patterns — human-in-the-loop exploration in Figma and code that keeps craft high while speeding discovery through delivery.
