EXPERIENCE

BNY Pershing · Product Designer, Wealth Services

Sep 2023 – Present

Regulated banking platform for advisors and institutions — end-to-end ownership of complex, ambiguous money workflows so analytical operations feel simple, trustworthy, and frictionless.

- Lead designer on Fully Paid Lending: owned a dense securities-lending product area end to end — enrollment and dashboard flows now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product and Engineering: research and high-fidelity prototypes that clarify multi-step money journeys, reduce friction around compliance edge cases, and align partners on scalable interaction patterns.
- Redesigned alternative investment order entry with streamlined AI-enabled document upload — cut drop-off in a document-heavy client workflow while keeping automation transparent and compliance requirements intact.
- Partnered with internal teams on AI-enabled workflows and design-system patterns for the Wealth Services design team; works with engineers and PMs using Devin, ChatGPT, and Codex while delivering polished UI in Figma and code.
