EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — high-stakes, trust-sensitive product surfaces where privacy of financial data and clarity of multi-step flows are non-negotiable.

- Lead designer on Fully Paid Lending: took a broad conceptual money product and shipped a clear, low-friction enrollment and dashboard experience now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement: end-to-end ownership across research, interaction design, and high-fidelity prototypes for sensitive multi-step journeys that have to feel personal and trustworthy.
- Advocate for simplicity and craft — typography, layout, and interaction detail — while contributing reusable patterns that scale consistent behavior across related product surfaces.
- Partnered with internal teams on AI-enabled Wealth Services patterns; uses Devin, Codex, and Claude Code extensively to explore and ship without dropping interaction quality.
