EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — end-to-end ownership on complex multi-surface product experiences where interaction clarity and visual craft meet real adoption outcomes.

- Lead designer on Fully Paid Lending: turned an ambiguous money-product problem into a shipped experience (enrollment + dashboard) now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product, Engineering, and research partners: move fluidly between strategy and high-fidelity execution across multi-step, multi-surface journeys.
- Own visual and interaction craft — type, spacing, hierarchy, and states — and contribute reusable patterns that keep dense flows consistent as priorities shift.
- Partnered with internal teams on AI-enabled Wealth Services patterns; uses Devin, Codex, and Claude Code so exploration stays fast without sacrificing craft before launch.
