EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — interaction and visual design on sophisticated product surfaces where how something behaves and how it looks both drive trust and adoption.

- Lead designer on Fully Paid Lending: defined interaction patterns and high-fidelity UI for enrollment and dashboard flows now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement: usability testing and stakeholder feedback that shape strategy, then prototypes that show exactly how multi-step interfaces should behave before build.
- Sweat visual craft — typography, layout, hierarchy, and states — and contribute reusable patterns so dense financial interfaces stay coherent across related workstreams.
- Partnered with internal teams on AI-enabled Wealth Services patterns; uses Devin, Codex, and Claude Code for ideation through production while keeping human-interface quality high.
