EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — complex analytical products where design partners closely with technical teams to make sophisticated capabilities usable.

- Lead designer on Fully Paid Lending: drove end-to-end experience in a large ambiguous domain — from concept through polished flows now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement: strategic product thinking with Product and Engineering — prioritize what to build, prototype interaction behavior, and present goals clearly to senior stakeholders.
- Own interaction and visual craft on data-dense surfaces; use prototyping to demonstrate how a flow should behave before it ships at platform scale.
- Partnered with internal teams on AI-enabled Wealth Services workflows and patterns; uses Devin, Codex, and Claude Code (incl. agent-style workflows) to optimize design-to-production loops.
