EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Advisor and IBD wealth platform — alternative investments, account opening, and money workflows where component fidelity, documented patterns, and design-in-code handoff keep production aligned to intent.

- Lead designer on Fully Paid Lending: defined reusable dashboard and enrollment components, states, and edge cases now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement: high-fidelity specs with variants, auto layout, and accessibility-minded handoff so multi-step advisor journeys stay consistent as product owners and engineers extend them.
- Grew shared Wealth Services patterns — components, annotations, and dos/don'ts that raise craft and cut one-off variance so front-end partners know exactly what to implement.
- Prototype and refine UI in Figma and front-end code with Claude Code, Devin, and Codex — keep design intent intact through the handoff so production matches approved prototypes and rework drops.

Collective Design · Design Advisor 2024 – Present
