EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Regulated wealth platform for advisors and Introducing Broker-Dealers — onboarding, money movement, and securities workflows where clarity has to hold across compliance nuance and production edge cases.

- Lead designer on Fully Paid Lending: owned end-to-end money-movement and enrollment experiences now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product, Engineering, Legal, and Compliance: simplified multi-step account and transfer journeys without losing required disclosures, states, or market rules.
- Built shared interaction systems — reusable primitives and patterns that keep dense financial UI consistent while teams adapt flows to different products and partner needs.
- Use AI daily to explore edge cases and prototype faster in Figma and code (Devin, Codex, Claude Code), then drive craft and direction through handoff with engineering partners.
