## EXPERIENCE

**BNY Pershing** · Product Designer, Wealth Services Sep 2023 – Present

Regulated wealth platform for advisors and Introducing Broker-Dealers — money movement, securities workflows, and analytical products where complex financial mechanics have to feel clear under real compliance constraints.

- Lead designer on Fully Paid Lending: owned end-to-end design for a new securities-lending product from early concept through live launch — enrollment, money-movement, and position views now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product, Engineering, Legal, and Compliance: translated dense trading and transfer rules into intuitive multi-step journeys without losing required disclosures, states, or edge cases.
- Turned ambiguous, first-of-its-kind requirements into clear product structure — reusable interaction systems and patterns that keep dense financial UI consistent while teams ship new flows under changing constraints.
- Operate independently across stakeholders: synthesize feedback from PMs, engineers, and senior partners, iterate quickly in Figma and code (Devin, Codex, Claude Code), and partnered with internal teams on AI-enabled workflows and patterns for the Wealth Services design team.

**Collective Design** · Design Advisor 2024 – Present

Advise early-stage AI and product startups on interaction craft and systems thinking when the product is technical and there is no playbook yet.

**Purple Panda Rentals** · Product Designer & Founder Sep 2020 – Feb 2023

Founded and shipped a consumer product 0-to-1 — onboarding, referral, and milestone flows designed for first-time clarity under ambiguity. 100+ sign-ups, 20% referral increase.
