

John Rubino

Product designer in NYC with 4+ years on data-dense B2B products for expert users who work under pressure and can't afford to get it wrong. I partner with product and engineering, ship in both Figma and code, and use Devin, Codex, and Claude Code to take work from product requirement to design to production.

EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Regulated enterprise wealth platform for advisors and institutions — analytical, data-dense surfaces where expert users process transactions, entities, and risk signals and need clarity without dumbing the work down.

- Lead designer on Fully Paid Lending: owned concept through shipped production with PM and engineering — enrollment and dashboard live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Partnered on AI-enabled Wealth Services patterns: how users hand work to AI, review outputs with sources and confidence, and redirect when the system is wrong — trust and human override designed into the flow, not bolted on.
- Grew a shared Wealth Services pattern library — reusable components, hierarchy, and docs contributed back so designers and product ship coherent UI instead of one-offs under tight timelines.
- Embedded with PM and engineering through discovery and launch: stay in the build thread after handoff, adjust designs on the spot, and decide when a problem needs the 1-day vs. 1-week version — Figma plus code, with Devin, Codex, and Claude Code for speed with judgment.

Collective Design · Design Advisor 2024 – Present
