EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — visual and interaction craft on analytical product surfaces where how users process dense information matters as much as the workflow itself.

- Lead designer on Fully Paid Lending: translated business requirements into high-fidelity Figma designs actionable by engineering — enrollment and dashboard now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product and Engineering: raised the visual and interaction bar on multi-step journeys while keeping look and feel consistent across the Wealth Services suite.
- Grew a shared pattern library for Wealth Services — reusable components, hierarchy, and docs — so design and product ship coherent UI instead of one-off screens under tight timelines.
- Partnered with internal teams on AI-enabled Wealth Services patterns; balances craft velocity with bias to ship in Figma and code (HTML/CSS familiarity through production handoff).
