EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

- Regulated enterprise wealth platform for advisors and institutions — trust-critical money and identity surfaces where privacy, compliance, and informed user choice have to coexist without burying people in friction.
- Design end-to-end experiences that turn regulatory and policy constraints into scalable consent, transparency, and control patterns — account standing, disclosures, and enrollment flows advisors and partners can complete with confidence.
 - Lead designer on Fully Paid Lending: owned UX from ideation through launch — enrollment and dashboard now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
 - Co-led New Account Opening and Asset Movement with Product, Engineering, Legal/compliance, and research: wireframes through interactive prototypes and QA-minded handoff across multi-step, cross-surface journeys.
 - Partnered with internal teams on AI-enabled Wealth Services patterns; uses Devin, Codex, and Claude Code for ideation through production so exploration stays fast without sacrificing craft.

Collective Design · Design Advisor 2024 – Present
