EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — owning end-to-end design on dense operator workflows and analytical product surfaces where systems thinking across tools and user types matters as much as visual craft.

- Lead designer on Fully Paid Lending: owned the product end to end from UX strategy through polished UI — multi-step enrollment and ops-facing dashboard now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product and Engineering: discovery through high-fidelity prototypes that connect batch, multi-party workflows into coherent journeys operators can trust.
- Design data-heavy states and hierarchy across dashboards and multi-step flows — surfacing the metrics and status that matter without drowning operators in noise — and contribute reusable patterns that keep dense tools consistent.
- Partnered with internal teams on AI-enabled Wealth Services patterns; uses Devin, Codex, and Claude Code for ideation through production so exploration stays fast without sacrificing craft.
