EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — revenue-generating financial products and regulated, multi-step flows where clarity drives adoption.

- Lead designer on Fully Paid Lending: took an ambiguous new revenue product from concept to launch with PM and engineering — enrollment, dashboard, and earnings states now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with product, engineering, and research partners: distilled complex, multi-step account and money-movement actions into clear flows, from strategy and roadmap input through high-fidelity execution.
- Defined reusable interaction and visual patterns — type, spacing, hierarchy, and states — that evolve the Wealth Services design system and keep dense surfaces consistent across teams.
- Built functional prototypes in Figma and code with Devin, Codex, and Claude Code, and partnered with internal teams to develop workflows and AI-enabled patterns for the Wealth Services design team; mentor designers on systems and quality.
