EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — regulated, high-stakes journeys where intermediaries need fast, trustworthy tools to serve the people behind the account.

- Lead designer on Fully Paid Lending: owned enrollment, dashboard, and position-level flows that advisors and IBDs use daily; now live in NetX for all Introducing Broker-Dealers — a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement with Product and Engineering: research through high-fidelity and coded prototypes that clarify multi-step agent-side journeys and ship phased improvements rather than one-shot redesigns.
- Grew reusable Wealth Services patterns — hierarchy, states, and annotations — so back-office and advisor surfaces stay consistent as products scale.
- Prototype-first with Devin, Codex, and Claude Code alongside Figma; partnered with internal teams on AI-enabled document-upload and workflow patterns, then translated validated flows into production-ready UI with eng partners.
