

John Rubino

Product designer in NYC with 4+ years at the design–frontend boundary — high craft, production-minded UI, and AI-first prototyping. I partner with product and engineering, ship in both Figma and code, and use Devin, Codex, and Claude Code to take work from product requirement to design to production.

EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — high-stakes, data-dense money workflows where craft, performance, and reliability have to survive the handoff to production.

- Lead designer on Fully Paid Lending: owned concept through shipped production UI with engineering partners — dashboard, digital enrollment, states, and edge cases now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement: established hierarchy, reusable interaction patterns, and specs across data-dense journeys so teams ship consistent, reliable surfaces instead of one-offs.
- Grew shared Wealth Services patterns — components, annotations, and accessibility-minded details that raise craft (spacing, type, a11y) and make consequential product-wide changes more reliable.
- Work AI-first: clarify intent in an LLM, explore and build with Devin, Codex, and Claude Code, validate with partners, then bring systems polish into Figma — translating validated flows into production-ready UI with eng.

Collective Design · Design Advisor 2024 – Present

Advise early-stage AI and product startups on interaction craft, systems thinking, and design language when builders own problems end to end.

Purple Panda Rentals · Product Designer & Founder Sep 2020 – Feb 2023

Founded and shipped a consumer product 0-to-1 in Figma and code — end-to-end flows from concept through production UI across browsers and devices. 100+ sign-ups, 20% referral increase.
