

John Rubino

Product designer in NYC with 4+ years at the design–code boundary — systems thinking, interaction craft, and production-minded UI. I partner with product and engineering, ship in both Figma and code, and use Devin, Codex, and Claude Code to take work from product requirement to design to production.

EXPERIENCE

BNY Pershing · Product Designer, Wealth Services Sep 2023 – Present

Enterprise wealth platform for advisors and institutions — dense financial surfaces where hierarchy, reusable primitives, accessibility, and micro-details have to hold once engineering ships them.

- Lead designer on Fully Paid Lending: owned concept through shipped production UI with engineering partners — dashboard, digital enrollment, states, and edge cases now live in NetX for all Introducing Broker-Dealers; a March beta partner lent \$27M in a day (\$49.9k to the investor, \$10.7k to the IBD).
- Co-led New Account Opening and Asset Movement: established hierarchy, reusable interaction patterns, and specs across data-dense journeys so teams ship consistent surfaces instead of one-offs — from first action through failure and recovery states.
- Grew shared Wealth Services patterns — components, annotations, and accessibility-minded details that raise craft (spacing, type, a11y) and make product-wide changes more reliable.
- Prototype in Figma and code with Devin, Codex, and Claude Code to accelerate design–engineering handoff — including AI-enabled document-upload paths — then translate validated flows into production-ready UI with eng partners.

Collective Design · Design Advisor 2024 – Present

Advise early-stage AI and product startups on interaction craft, systems thinking, and design language when the product is technical and the team moves fast.

Purple Panda Rentals · Product Designer & Founder Sep 2020 – Feb 2023

Founded and shipped a consumer product 0-to-1 in Figma and code — end-to-end flows from concept through production UI across browsers and devices. 100+ sign-ups, 20% referral increase.
